January 28, 2002

Attorney General John Ashcroft  
US Department of Justice  
950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

Dear Attorney General Ashcroft:

I am wish to express my support for the settlement reached in the government's case against Microsoft. It's time to end this this. I want the government to stop hounding Microsoft so they can continue to innovate, create more jobs, provide more innovative products, and otherwise help our economy recover just like President Bush wants us to.

Before Microsoft created the Windows product only the technically adept were able to use a computer not to mention the internet. Lets be fair but let's not overly punish a company for being aggressive and competitive.

I urge that the government accept the settlement as it has been drafted. Let's get on with business we certainly have many other important challenges to tackle. Let's work together to improve our economy and keep the United States free of terrorism.

Please help us

Sincerely,  
Richard Lefebvre
